

GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)

No.2009/LML/2/13

New Delhi, dt. 28.12.2010

The Principal Chief Engineers,
All Indian Railways.

Sub: Supply of Electricity/water/sewerage services to Multi Functional Complexes (MFCs) to be developed by RLDA/PSUs and way leave charges-reg.

It was requested by RLDA that the Zonal Railways may provide electricity, water supply and sewerage services for the proposed Multi Functional Complexes (MFCs) on payment basis as per extant rules to the developer who would be developing the MFC. Where the railway is not in a position to supply the same, developer may be allowed to bring/connect utilities from outside the Railways without imposition of way leave charges. Accordingly they have made a provision in the RFP document for MFC.

The matter has been examined in consultation with the Finance Directorate of the Railway Board and it has been decided that Zonal Railways would provide electricity, water supply and sewerage services to the proposed MFCs to be developed by the developer engaged by RLDA/PSUs on usual payment basis as per extant rules of the railway. Where zonal railway is not able to provide these services, no way leave charges would be levied for getting these utilities/facilities from outside the Railway area to the MFCs.

This issues with the concurrence of Finance Directorate of Railway Board.
