

## **EXPANDING HORIZONS OF RLDA**

**In recent years, the horizons of the Rail Land Development Authority (RLDA) have significantly broadened beyond the established tasks of MFCs creation, Land parcel redevelopment, Colony redevelopment & Station redevelopment. It is now encompassing the creation and marketing in self-development mode.**

**The Gomti Nagar Railway Station in Lucknow and Safdarjung Station is set to be the first two projects developed with their own retained earnings, by RLDA with additional projects currently in the planning stages. This expansion reflects RLDA's growing confidence in managing self-development initiatives.**

**Moreover, RLDA's evolving scope now includes integrated master planning of railway colonies in major cities and the leasing of built-up and air spaces at redeveloped railway stations.**

**Having construction capabilities & land redevelopment through different models included in its core competency, RLDA is now Offering consultancy of other organizations on their such requirements**

**Thus, RLDA has not only embraced its original objectives but is also actively pursuing new initiatives, contributing to its ongoing success story.**
